

大武山 全台最大自然保留區 Dawu Mountain, the Largest Nature Reserve in Taiwan

金峰鄉的大武山自然保留區，位於中央山脈南端東向坡面，占地廣達4萬7,000公頃，是目前全台灣面積最大、也是唯一擁有，從海拔200公尺到3,000公尺完整林相的自然保留區。由於具有台灣東部地區山高水急的特色，再加上海拔高度變化形成的氣候差異，故擁有寒、溫、熱帶之豐富生物相，其中，更包括保育類的珍貴稀有物種，為台灣保存了非常完整的自然生態體系。

With an area of 47,000 hectares, Dawu Mountain Nature Reserve in Jin-fong Township is the largest reserve in Taiwan and the only one that has a complete forest form of frigid, temperate and tropical zones at the elevation from 200 to 3,000 meters. Featured with the mountains of high altitude and rapid river flow unique to the East, and versatile climate changes caused by high elevation, it keeps a complete ecosystem abundant with biological diversity, including precious and protected species for Taiwan.
